

HAMBURGER LLOYD

Nautical Inspector (m/f/d) - (Nautical Manager)

Location: Hamburg, Germany

About Us:

Hamburger Lloyd has been managing and servicing container ships, tankers, and bulk carriers for 18 years and is a highly respected service provider for technical ship management. Our commitment to excellence and innovation drives us to seek talented professionals who are passionate about the maritime industry.

Job Description:

We are looking for a highly skilled Nautical Inspector with in-depth knowledge of maritime IT systems and nautical technologies. The ideal candidate will possess expertise in Electronic Chart Display and Information System (ECDIS), Radar Systems, loading software and other critical nautical systems. You will be joining the team which is responsible for inspecting and ensuring the compliance of various vessels with international maritime standards, providing technical support, and maintaining the highest level of safety and efficiency.

Key Responsibilities:

- Conduct thorough inspections of vessels to ensure compliance with international maritime regulations and safety standards.
- Provide detailed reports and recommendations based on inspection findings.
- Collaborate with ship crews and technical teams to address and rectify any identified issues.
- Evaluate the functionality and integration of nautical systems such as ECDIS, Radar, loading software, and other related technologies.
- Supporting vessel crews in navigational Software as well as loading Software such as MACS3, OBI
- Administration of nautical systems with authorities like Flag state
- Administration of vessel certificates
- Stay updated with the latest developments in maritime IT and nautical systems to ensure best practices.
- Deliver training and support to vessel crews on the proper use and maintenance of nautical systems.
- Assist in the development and implementation of company policies and procedures related to maritime safety and compliance.

Requirements:

- Bachelor's degree in Nautical Science, Marine Engineering, Maritime IT, or a related field.

HAMBURGER LLOYD

- Proven experience as a Nautical Officer or Inspector or in a similar role within the maritime industry.
- In-depth knowledge of ECDIS, radar systems, loading software, and other nautical technologies.
- In-depth knowledge of navigational- and loading Software
- Strong understanding of international maritime regulations and safety standards.
- Excellent problem-solving skills and attention to detail.
- Ability to work independently and as part of a team.
- Strong communication skills, both written and verbal in German and English.
- Ability to travel as required.

Preferred Qualifikation:

- Nautical studies or comparable qualification, preferably also experience as officer of the watch or captain on modern container ships.
- Previous experience in training or instructing vessel crews would be an advantage.
- Familiarity with additional maritime software and technologies.

What We Offer:

- Competitive salary and benefits package.
- Opportunities for professional development and growth.
- A dynamic and supportive work environment.
- The chance to make a significant impact on maritime safety and compliance.
